### 1.5. CANCELLATION FROM THE PARTICIPANT'S INITIATIVE

For participants wishing to subscribe, “cancellation” insurance, whose policy can be consulted on Time to, is available when registering for the Event on *time to*. It must be taken out before the order is validated. This option will allow you, under particular terms established by the insurer chosen by the Organiser, to allow you to be reimbursed for part or all of your race number only, excluding any other products or services ordered.

Two cancellation insurance are offered:

- A premium of 11 € if your total of registration fees for the Event, excluding option, is less than or equal to 150 €,
- A premium of 20 € if your total registration fee for the Event is between 151 € and 250 €. It is then recalled that the compensation will be limited to this amount of 250 €.

The participant can only choose one of the two insurance premiums, the two premiums not being cumulative.

The participant subscribing a cancellation insurance must imperatively choose the insurance premium corresponding to their total registration fees to the Event. Thus, any participant with a total event registration fee greater than 150 € will be able to subscribe, if decided, only the premium of 20 €.

## **1.6. CHONOMETRY AND TIMING**

All the event will be timed, except for the Gravel Origins 83. The Official Jury consists of a referee of the FFC, whose decision power is final. The referee is assisted by judges, also appointed by the FFAC.

Timing will be adapted according to the format of each event.

All events will be timed, with the exception of the Gravel Origins 83 event.

The events having “rando” in their names are timed but will not give rise to the establishment of a ranking.

The rankings of the EnduRoc, the Electric EnduRoc and the Roc XC Rally will be established by cumulating the time achieved on each stage.

The classification of the Roc Trophy will be established every day. The prizes will be given considering the classification of the stage of the day and the classification of the general. Any participant taking the start without having crossed the grid control before the start will be considered as non-starter and will not be ranked.

All participants will be issued with an electronic chip when they pick up their race numbers (the chip is attached to the back of the frame numbers), which will be automatically initialised on the start line and will track the conformity of the race at each antenna along the Event’s route and at the finish line. In order to allow the timing chip to function properly it must not be folded or bent. The frame plate must be attached to the front of the bike. participants who do not follow the route defined by the Organiser, who use human and/or material assistance, or who cross the finish line without their “chipped” frame plate will not be recorded as having finished.

The electronic detection system has been chosen according to strict reliability requirements. Despite tests conducted by the manufacturers, a very low percentage of cases of non-detection

remains. Due to the lack of information resulting from this non-detection, the Organiser may be unable to show the official or real time for the participant concerned in the ranking. The Organiser cannot be held responsible for this.

### **1.7. FEEDING POINTS AND ASSISTANCE**

Correspondante.

Participants must ensure that, when they leave a refreshment point, they have enough food and water to reach the following refreshment point. Maintenance is strictly limited to “refreshment areas”. It is strictly forbidden to change bikes or wheels during a race. Participants are allowed to offer one another technical assistance.

No follower vehicles are allowed.

Only official motorcycles are allowed on the circuit; these will be clearly marked and their riders will be wearing official bibs. There will be a limited number for each race, and they will be easy to identify:

- An opening motorcycle;
- A race commentary motorcycle for the finish line;
- A race commissioner’s motorcycle;
- A press motorcycle (camera);
- A doctor’s motorcycle;
- A sweep motorcycle.

If a participant falls during the EnduRoc, the other riders are responsible for stopping to raise the alarm. Any competitor who has stopped to help another participant during a special should inform an official at the finish line. He will be allowed to start the special again.

In the Tri Roc, participants are not allowed to help one another.

On the Roc Marathon, as set out in the regulations (Art. 4.2.048 of the UCI Cycling Regulations), competitors and their UCI MTB or national teams are responsible for placing their equipment in the technical assistance area. Only the riders themselves or their teammates (from the same UCI MTB team or the same national team) can repair or change equipment within this area. Members from the same UCI MTB team or national team are also allowed to provide technical assistance to one another outside these areas (Art. 4.2.049 of the UCI Cycling Regulations). The technical assistance areas are the same as the refreshment areas.

### **1.8. GENERAL SERVICES**

Road safety is managed by the Service départemental d'incendie et de secours du Var (83). . They may decide to eliminate a participant for medical reasons. Under no circumstances will the Organiser be held liable by participants who have not finished their race, following a decision to eliminate that person taken by the general services.

### **1.9. ACCESS TO THE SITE AND SECURITY**

It is strictly forbidden to bring any objects to the Event site that may be dangerous or illegal, in particular drugs, firearms, blunt weapons and explosives.

To access the site and take part in the Event, the participant recognises and expressly agrees that the Organiser may call upon security personnel who will be authorised to check both people as well as inspecting their personal belongings. Everyone who wishes to access the site must comply with this check. If they refuse to do so they will not be authorised to access the site.

The Organiser and the security staff may refuse access to the Event or prevent participants from taking part if their behaviour is likely to disturb the smooth running of the Event notably under the following, non-exhaustive circumstances: the use of any object which may hinder the race, the circulation and/or safety of other participants; the use of any distinctive promotion, in any form, of an opinion [political, philosophical or religious] likely to damage the image of the Event; abnormal, inappropriate or immoral behaviour of the participant, in particular if they appear to be under the influence of drugs or alcohol.

The Organiser will put a number of measures in place to ensure as much as possible the safety of the route: signage, motorcyclists with flags indicating dangerous areas, signs indicating sections requiring particular attention.

The participants must respect the safety instructions given by the Organiser's personnel along the whole route.

The safety measures will end at the finish line.

The proposed routes will be mainly on roads open to traffic.

It is essential that each participant **RESPECT THE FRENCH HIGHWAY CODE** throughout the course.

.For everyone's safety, it is essential that each Participant RESPECT, on the course that will be reported by material means (arrows and rubalise) and human (physical person "orienters"), THE FRENCH HIGHWAY CODE throughout the course, as well as any record given by the Organizer, its staff, or by the police.

The proposed routes have portions open to traffic/are opened to traffic. By participating in the Event, you agree to remain extremely vigilant, this vigilance having to be reinforced on the race portions open to traffic, and even more so, at roads intersections.

Security personnel will be present at certain intersections / road crossings to facilitate the passage of runners, without however being able to ensure their priority passage.

#### **1.10. WITHDRAWALS AND TIME LIMITS**

If a participant wishes to withdraw for any reason other than injury, he should, if at all possible, do so at one of the recovery points set up by the Organiser. The participant should find the person in charge of the area, who will permanently invalidate his race number. Return transportation for participants and bikes will be available at each of these points.

In order to ensure the participants' safety and to allow the re-opening of roads to cars to be scheduled, it is essential that participants do not exceed the end Event time limits.

Time limits at the recovery points will be identified, communicated to participants (via the Event's website, social networks and at the Village where race numbers will be collected in Albertville) and put in place. These time limits will correspond to the times after which it will no

longer be possible to leave the indicated place (other than by following the alternative route under the terms set out below).

If participants do not leave the recovery points before the specified time, they will be eliminated from the race and will no longer feature in the Event's rankings. Return transportation for participants and bikes will be available at each of these points.

The Organizer will set up a limit switch, consisting of one or two motorcycles, to follow the last competitor.

On the Tri Roc, all participants must have reached the transition zone between mountain biking and running (T2) no later than 4 hours after the start. Beyond this deadline, participants will not be allowed to enter the running course.

### **1.11. INSURANCE**
